

Executive Branch: Enable Greater Ops Awareness & Synergy

Provide Effective & Efficient Governance

Enabling Awareness & Synergy

1.1 Enable ops situation awareness (SA) synergy by using activity info standards and availability

1.2.1 Government activity details

1.2 Activity info standardization enables dashboard visibility and SA of:

1.2.2 Wide spectrum SA at all releasable levels

1.2.3 Collaboration and action needs/opportunities

1. Definition

1.3 Beta-test ops structure for potential effectiveness

1.3.1 2-3 SMEs could create prototype concern-info standard and prototype-dashboard in hour(s)

Current Ops: Lack of Awareness & Collaboration

2. Current-State (As-Is)

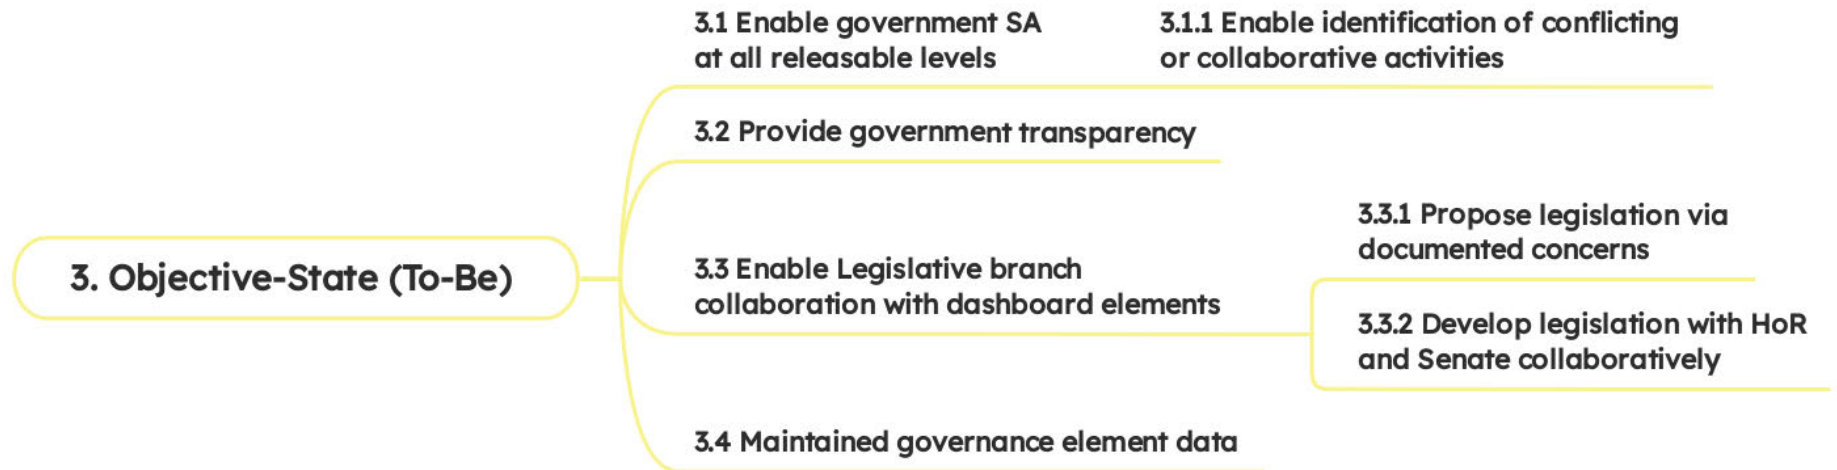

2.1 Personnel at all levels have limited-sphere government activity awareness

2.2 Lacking outside activity awareness hiding issues and opportunities

2.3 Lacking government transparency

2.4 Unorganized Legislative branch collaboration and unity of efforts

Objective: Enable Ops Synergy

Roadmap: Beta-test, Implement

4. Roadmap (How-To)

```
graph LR; A[4. Roadmap (How-To)] --- B[4.1 Conduct operations beta-test]; B --- C[4.1.1 Develop experimental governance dashboard]; B --- D[4.1.2 Assign related offices to operate using concern-based methods]; B --- E[4.1.3 Adapt operations procedures as needed];
```

4.1 Conduct operations beta-test

4.1.1 Develop experimental governance dashboard

4.1.2 Assign related offices to operate using concern-based methods

4.1.3 Adapt operations procedures as needed

Summary: Upgrade Ops Procedures

5. Synopsis

5.1 Government ops entities lack operations synergy due to self-contained ops activities and data exchange

5.2 Open ops data is available using concerns-based ops methodology

5.3 Conduct concerns-based ops beta test

Adapt Procedures to Lessons Learned

6. Assessment

6.1 Leadership assess ops utility
